This shall be calculated on the basis of total area available for street vending divided by the standard unit size decided by the town vending committee. The town vending committee may follow the following criteria for this purpose, namely:-

[i] a maximum of 2.2 sq. mts area as 'vending area' shall be provided to each vendor/ hawker with dimension of 1.8 meter x 1.2 meter,

- [iv] a mutually agreed place for relocation should be considered under the implementation of the rehabilitation project.
- [v] affected vendors shall be relocated so as to improve their livelihoods and standards of living or at least to restore them, in real terms, to the income potential of the site before the eviction,
- [vi] livelihood opportunities created by new infrastructure development projects may be used to accommodate the displaced vendors so that they can make use of the livelihood opportunities created by the new infrastructure,
